Dear Administrator Pruitt:

The Chamber is encouraged by the administration's decision to advance the U.S. business agenda at the upcoming meeting of G7 minsters of environment in Bologna.

We are pleased to support the U.S. delegation led by you, and we have secured the commitment of our Chairman of the Board, John Hopkins of NuScale Power, to represent us at the meeting. NuScale is one of the most innovative U.S. energy companies that offers safe power generation modules globally. John has led our

delegation to the last two B7 Summits and will bring the Chamber's vision on resource efficiency and competitiveness.

We look forward to working with you and your staff to deliver solid wins for U.S. business from this and other international engagements.

Best wishes.

Tom
